*The District makes real time hourly purchases and within hour energy imbalance to follow District load. In addition, the District separately purchases Renewable Energy Certificates (RECs) for the Green Energy Program. As part of Exhibit H of Pacific's Regional Dialogue Contract Power Sales Agreement with Bonneville Power Administration (BPA), Pacific has 2,666 MWh of wind generation from Condon, Klondike I, Klondike III, and Stateline. Pacific also has 4,827 MWh of Hydro Tier 1 RECs for incremental hydro improvements from Grand Coulee, Cougar, Chief Joseph, Bonneville, Lookout, Hills Creek and Palisades dams.
